

AGUINALDO HAS DESERTED POST

FILIPINO LEADER IS NOW SAID
TO BE IN HIDING.

Gen. Pilar May Surrender—New Chief
of the Insurgents Said to Be
Tired of the Struggle—Abandon-
ment of the Policy of Burning
Bridges.

Manila, May 16.—It is said that Aguin-
aldo has fled to the province of
Nueva Ecija. On April 29 he retreated
by carriage from Balang through San
Isidro. Nothing has been heard of
him for over two weeks, and it is sup-
posed he is in hiding in the sparsely
settled northern province.

Pilar Anxious to Surrender.
The insurgent general, Gregorio Pi-
lar, believes he has been deserted by
the so-called Filipino government.
Monday he sent a messenger to Gen.
Lawton with the information that he
desired to surrender to the Ameri-
cans if he would be allowed to do so
in an honorable manner.

Will Stop Burning Villages.
The indignation of the natives has
forced the insurgent generals to coun-
termand their orders that all villages
should be destroyed by fire as they re-
treated. The policy of the Americans,
who have not destroyed property, is
creating a favorable impression. The
natives see that they have been in-
jured more by the insurgents than by
the Americans.

Americans Held Prisoners.
Five American prisoners were car-
ried through this village by the Fili-
pinos last week. Their names could
not be learned.

Many natives are returning through
the American lines to their homes.

Have Hopes in Conference.
Washington, May 16.—A satisfactory
conclusion is expected by administra-
tion officials from the conference
which will be held by the American
Philippine commission with the com-
mission which Aguinaldo proposes to
send to Manila. In a dispatch to the
war department Gen. Otis announced
that Aguinaldo had sent a messenger
to him expressing a wish to send the
commission to "arrange terms of
peace." The administration officials
express the opinion that this commis-
sion will submit to President Schur-
man and his associates the answer of
Aguinaldo to the propositions made by
the American commission to Col. Ar-
guelles, Aguinaldo's emissary, regard-
ing the character of government which
would be given to the Filipinos, and
which Arguelles declared was satis-
factory.

It is probably apparent to the Fili-
pinos that there is nothing to be
gained by conducting negotiations for
the purpose of obtaining a temporary
cessation of hostilities. Gen. Otis will
not grant an armistice, and he has
shown that he does not propose to stop
fighting, no matter how many peace
emissaries Aguinaldo may send to Ma-
nila, unless they agree to uncondition-
ally surrender. In his dispatch Gen.
Otis shows, despite the fact that Agui-
naldo states his purpose to send a
commission to arrange peace, he is
making preparations to continue mili-
tary operations.

It is evident to the officials from this
dispatch that Gen. Otis has found it
necessary to change his plans. He has
been making preparations to attack
Bacolor, where 9,000 insurgents are be-
lieved to be encamped, and it is pre-
sumed that the movements reported
today still have that point as the ob-
jective. Gen. Lawton is making ex-
cellent progress in his northward
march, and the dispatch of Major
Kobbe with 1,500 men up the Rio
Grande, supported by gunboats and
cascoes, is for the purpose of enabling
Gen. Lawton to cross the Rio Grande
without molestation by the enemy.

The plan apparently contemplates
the rapid swinging of Lawton to the
west. Gen. MacArthur to remain at San
Fernando, between the insurgents at
Bacolor and those at Mexico, and
Kobbe to take a station so as to pre-
vent them from crossing the Rio
Grande. MacArthur is also needed at
his present point to protect communi-
cation with Manila.

Natives Forced to Fight.
Manila, May 16.—When Gen. Lawton
entered San Miguel Monday he took
600 prisoners, but none of them was
armed. It is supposed that the arms
were hidden. One of the prisoners said
that all natives had been forced to fight
under penalty of death. The prisoners
include fifteen Spaniards. They say
that the insurgents are becoming dis-
gusted with the hopelessness of their
warfare.

Expel British Workers.
London, May 16.—The following dis-
patch has been received by Lloyds
from Manila: "Owing to the orders of
the revolutionists, all British employes
have been forced to leave the rice mills
and to come here. Native employes
will be left at the mills. A protest
has been filed with the British con-
sul."

Another Big Iron Trust.
Cleveland, O., May 16.—The sale of
the Lake Erie iron works Monday gave
notice of the fact that another im-
mense combination of iron and steel
interests has been consummated. The

Republic Steel company has been in-
corporated under the laws of New Jer-
sey with a capital of \$55,000,000, con-
sisting of \$25,000,000 preferred and
\$30,000,000 common stock. The new
corporation is composed of thirty-four
iron and steel concerns in Ohio, Penn-
sylvania, Indiana, Illinois, Minnesota,
Alabama and Michigan.

BRITISH SOLDIERS SENT.

Territory in China Is to Beforcibly
Occupied.

Hongkong, May 16.—The native op-
position to the occupation by British
forces of the new territory, Kow-Loon
opposite Hongkong, has suddenly been
renewed. About 900 men of the Hong-
kong regiment, with machine guns, are
leaving here, while the volunteers
have been warned to be in readiness
for any emergency. The British sec-
ond-class gunboat Swift and three other
gunboats are proceeding to sea un-
der sealed orders. These war ships
have 500 men on board. The territory
back of the hinterland is also distur-
bed, and Chinese troops have been sent
there.

To Train Them for the Navy.

New York, May 16.—A special to the
Herald from Washington says: "Under
instructions given by Secretary
Long, the gunboats Annapolis and
Vicksburg are to be placed out of com-
mission and refitted for service as gun-
boats instead of as training ships. Ex-
perience has demonstrated that these
vessels are too small for the training
service, and their places will be taken
in this service by the Monongahela
on the Atlantic coast and the Hartford
and Pensacola in Pacific waters. Not
counting these ships ten vessels will
soon be engaged in training boys to be
sailors, landsmen to be seamen and
seamen to be expert gunners."

Porto Ricans to Be Soldiers.

New York, May 16.—A special to the
Herald from Washington says: "With-
in a few weeks a fully organized bat-
talion of Porto Ricans wearing the
United States army uniform will be
performing duty on their native is-
land, under the direction of American
officers. The organization of the com-
mand was authorized by Secretary Al-
ger. Reports show there is no lack
of volunteers and that more than half
of the battalion has been enlisted,
though some of the towns have not
yet furnished their quota of men."

Otis to Garrison Zamboanga.

Washington, May 16.—It is expected
at the war department that Gen. Otis
will take steps at once to replace the
Spanish garrison at Zamboanga with
United States troops. The indications
are that a comparatively small force
will suffice, provided that it is sup-
ported by one or two gunboats. The
place is one of great strategic impor-
tance, being the capital of the island
of Mindanao, the second largest in the
Philippine group, and a good seaport.

THE ANTI-PASS LAW IS NOW IN EFFECT

PUBLISHED IN OFFICIAL STATE
PAPER YESTERDAY.

Public Servants Returning to Madison
Pay Fare.—New London Boy Acci-
dentally Kills His Brother.—Con-
fessed to Charge of Horse Stealing
—State News.

Madison, Wis., May 16.—The Anti
Pass law went into effect yesterday and
was published in the official state paper
yesterday afternoon. It is now known
as chapter 357 of the laws of 1899, and
takes up about a quarter of a column of
the State Journal in small type. With
it are published the big Ray Negotiable
Paper Act. This completes the publica-
tion of the laws passed at the recent
session.

Many servants of the state who had
gone home over Sunday with the expec-
tation that they could use their passes
to return yesterday morning paid their
fares on the return trip yesterday for
the first time in their political careers.
The conductors on the various trains
were armed with printed certificates
which they required every pass-holder
to sign, saying that the signer was not
a public official and forbidden to use a
pass under the provision of 'act'. They
could not sign and dug 'up their
money.

Attorney General Hicks' opinion, re-
cently printed in The Sentinel, that a
notary public who was a bona fide em-
ploye of a railroad and was such before
the law went into effect, and who re-
ceived a pass as part payment for his
services, could use it without violating
the law, is attracting a good deal of at-
tention. Mr. Hicks is out of town, but
it is said that his opinion is based on a
decision of the New York courts, which
took the same ground. The New York
court's decision was grounded on the
familiar principle of law that the state
has no power to impair the validity of
existing contracts.

To Increase Tax on "Oleo."

Washington, May 15.—Steps are be-
ing taken to effect an organization
among members of congress from agri-
cultural districts for the enactment of
a law next winter raising the tax on
oleomargarine from 2 cents a pound to
10 cents a pound. The purpose of this
move is to tax oleomargarine out of
existence by making its production un-
profitable. The dairy interests have
worked up a strong sentiment among
farmers against substitute butters of
all kinds and congressmen are feeling
the pressure strongly.

Will Oppose Russia's Demands.

London, May 16.—The New York
Journal correspondent cables: "Lord
Salisbury has wired to the legation at
Peking to support vigorously the tsung-
li-yamen (Chinese foreign office) in its
refusal to accede to Russia's demands
for a new railway concession connect-
ing Peking with Russia's system now

concession asked for would ruin the
existing northern railways, in which
British capital to the amount of over
£2,000,000 is invested."

plies, of course, only to the particular
flash that was photographed.

THE BATTLE IN SAMOA.

Report of Admiral Kautz Includes Nar-
ratives of Eyewitnesses.

Washington, May 16.—Secretary
Long Monday made public so much of
a recent report from Admiral Kautz
upon Samoan affairs as touches the
killing of a number of American
sailors by Mataafa adherents near Apia
on the 1st of April. No mention is
made of the reported participation in
the affray of the German, Hufnagel,
the manager of the plantation where the
fight occurred. It is shown that the
failure of the Colt gun to work prop-
erly was in a large measure the cause
of the American and British defeat.

Admiral Kautz says the expedition
was projected by Capt. Sturdee of the
Porpoise. For several nights preced-
ing the sentries had been fired upon by
the natives, and it became necessary to
drive the aggressors away. Admiral
Kautz says it was the opinion of all
the officers who had the matter in
charge that the force was ample to do
the work without risk, especially as it
was to move out along the beach and
return the same way, under the protec-
tion of the guns of H. M. S. Royal-
ist. It is safe to say, says the admiral
that after Lieuts. Freeman and Lans-
dale had conferred together they did
what they deemed best under the cir-
cumstances, and the disaster that fol-
lowed could not be foreseen.

SCHAEFER IS CHAMPION.

Beats Slosson in the Big Balk-Line
Match for Billiard Honors.

New York, May 16.—Jake Schaefer of
Chicago won another great billiard
victory Monday night. He defeated
George Slosson of New York in the
18-inch balk-line match at 600 points
for the championship at the Lenox ly-
ceum. When Schaefer had registered
his 600th point the score of Slosson
was 418. Schaefer far excelled his rival
in his nursing runs, while Slosson for
some reason or other could not corner
the ivories for an extended run. Three
times the Wizard sacrificed his inning
by leaving the balls inside the lines
and an equal number of times Slosson
was out short owing to miscues. Score:
Schaefer—4, 60, 30, 0, 0, 10, 3, 23, 0,
23, 2, 0, 4, 8, 6, 0, 0, 0, 5, 1, 0, 1, 6,

Slosson—1, 1, 13, 0, 7, 8, 6, 0, 0, 4,

People often speak of a trillion as a
possible number. The fact is not a
trillion of seconds have elapsed since
the creation of Adam, nor will that

SENSATIONAL CHARGES MADE
IN WASHINGTON.

Attorney General Monnett Appears Be-
fore Industrial Commission and
Tells How the Standard Oil and
Other Big Corporations Get Their
Grip.

Washington, May 16.—[Special].—
The relation between railroads and
trusts that enables trusts to crush
private competition was touched upon
by the Industrial Commission today.
Attorney General Monnett, of Ohio,
gave sensational testimony.

The secret of maintenance of all trusts
he said, was that they received favors
from the railroads in transportation
rates.

Trusts, he declared, stole both federal
and state power with which to crush any
individuals.

Alluding to the Standard Oil Com-
pany, Attorney General Monnett delib-
erately charged that corporation with
criminal abuses.

The testimony was heard with the
closest attention as some of the matter
brought out was sensational in the
highest degree.

INTERESTING NEWS FROM AFTON

Contracts Let For Road Bridge Work

Afton, May 16—The supervisors of the towns of Rock and Plymouth met at the town line Saturday for the purpose of letting the contract for rebuilding the bridge which was burned April 25. The origin of the fire is unknown, but is supposed to have been started on the marsh in the town of Plymouth. The supervisors offer a reward of \$25 for the arrest and conviction of the person or persons who set the fire. The contract was let to George Haight & Co., of Hanover, for \$235, they being the lowest bidders. The Milwaukee Bridge and Iron Co. were the next lowest. The town of Rock will have two new bridges. The town board has let the contracts to the Milwaukee Bridge and Iron Co. for the erection of two steel bridges, one near the Youngs school house in Happy Hollow, and the other on the river road south of the residence of A. D. Lawless. The board also decided to draw plans and specifications and advertise for bids for the filling and grading at the Dunwiddie bridge on the river road south of Janesville city limits. TUXEDO SHIRT WAIST FROM HARPER'S BAZAR

A greater variety of shirt-waist designs have been displayed this season. They are to be had with rounded, pointed, and scooped yokes, and gathered, side pleated and box-pleated lower parts. This week's illustration which is taken from Harper's Bazar adds to the list of waist patterns a very pretty and exclusive design of a wadras shirt-waist, with pointed front yoke and a slightly rounded back yoke. There are three box-pleats in the lower part of the back of bodice, which measure one and one-eighth of an inch at the top, and slope into narrower dimensions at the waist, where a double row of stitching secures them. The line for this stitching is marked on the pattern. The front of the bodice has two box-pleats, one on each side of the opening, and a removable band, which reaches from collar to waist

simulates a center pleat. A shaped collar-band accompanies the pattern, but white collar pattern is not included. The sleeves are narrower than any shown with previous patterns, and are finished with rounded turned back cuffs. The narrow velvet belt is fastened with a filigree buckle. This design may be effectively used for white fabrics in combination with "all-over" embroidery and stripes of insertion between the pleats. French flannel, or the variety of figured flannel known as "Finnette" if made with bias and straight effects, will prove desirable mediums for this pretty model. To make the garment for a person of standard size will require 4 yards of madras, gingham, French or Finnette flannel 27 inches wide, or 2 1/2 yards of nainsook and 3/4 yards of "all-over" embroidery.

GOOD ATTRACTION TONIGHT

William Owen, the Young Romantic Actor, at Myers Grand

No young actor has ever won as much praise, or met with more well deserved success than has William Owen who will appear in this city tonight in a dramatization of Dumas' famous romance, "The Three Guardsmen." As always, Mr. Owen is surrounded with a powerful company headed by J. W. McConnell and Miss Camilla Reynolds.

"The Three Guardsmen" requires a strong as well as a large cast and the people have been especially selected to play the parts assigned them. William Owen will be seen as D'Artagnan, which is one of his very best characters and one that is suited to him perfectly. The hero of the play is a young country-bred Frenchman who goes to Paris and the story deals with his adventures there. He is brave, handsome and reckless with a great love for fun and fight. The play is given a full scenic production, special stuff being carried for all of the important acts. The costumes are beautiful and historically correct. The engagement for the Owen company is for one night only and the prices will be 75, 50 and 25 cents. Judging from the amount of talk already going the rounds regarding the company there will be a well-filled house.

There is more concentrated merit and medicinal power in a bottle of Hood's Sarsaparilla than in half a dozen bottles of others. Each bottle of Hood's Sarsaparilla contains one hundred doses—an unanswerable argument as to strength and economy—and will last a month, while other remedies average to last a week or fortnight. Second, because those who have bought it and taken it universally praise it. It cures even when other remedies fail to do any good whatever. In fact, it is not what we say but what Hood's Sarsaparilla does, that tells the story of its merit. Its thousands of testimonials are as reliable and worthy your confidence as if they came from your most trusted neighbor. Third, because, there is no substitute for Hood's Sarsaparilla. Dealers who try to sell something else, generally say "Ours is as good as Hood's"—thus admitting that Hood's is the standard and possesses merit impossible for others to reach. There are many other reasons why Hood's Sarsaparilla is America's Greatest Medicine, the Best That Money Can Buy. But if you will only buy it and try it yourself you will have reasons for faith in it stronger than them all—that of personal experience with, and personal knowledge of, its curative powers. Take it now. Get Hood's. It never disappoints.

modern methods make wonderful improvement in all things, as much so in bread as in any other article. EUREKA BREAD

Is Made With Modern Methods.

Our ovens are the very latest pattern and are a marked departure in build over the old style. They are moistened continually with live steam, which gives bread longer keeping qualities. Over two car loads of brick were used in their construction, making the heat of perfect temperature for baking. The fire is not in the oven chamber as is used with the old style, but under and above. These ovens have a greater capacity than all the ovens in the city together—486 loaves of bread can be baked at one time.

THIS DAY IN HISTORY.

1164—Eloise, famous French abbess, early lover of Abelard and subject of many romances, died; born about 1101.
1761—Colonel John Buttrick, commander of the Americans at the Concord fight, died; born 1781.
1805—William Henry Seward, statesman, born in Florida, Orange county, N. Y.; died 1872.
1830—Baron Fourier, famous French mathematician, died; born 1768. Like many other honest reformers, Fourier found himself outstripped by radicals in the cause of the revolution which he espoused with ardor. He was twice imprisoned by the dominant faction. Under Napoleon, Fourier was honored as a savant and given positions worthy his great talents. He was elected to the Academy in 1817.
1891—Rev. Dr. Edward Bright, editor The Examiner, died in New York city; born 1835.
1895—Admiral John J. Alden, U. S. N., retired, died in Washington; born 1814. Peter H. Burnett, first governor of California, died in San Francisco; born 1828.

ACCUSER IS CONDEMNED.

The New York Sun says some sharp things about General Miles in discussing the work of the beef board, saying the report will be read with profound satisfaction by all except those who have sympathized with the Major-General Commanding the Army in his unsoldierly attempt to bring professional discredit on the service and political infamy on the administration. Those who have joined him, from one motive or another, in this unexampled enterprise will have to content themselves with their proportionate share of the resulting mortification and the disgrace.

Gen. Miles and his witnesses failed absolutely to sustain his loudly and maliciously proclaimed charge concerning the so-called embalmed beef. The court declares that the major-general commanding the army had no justification for those charges.

In regard to the canned roast beef, the voluminous testimony which Gen. Miles offered is thrown out of court except so far as it concerns the minor question of the expediency of using that form of food on transports, or extensively and continuously as a field ration. No other charge of Gen. Miles about the canned beef is sustained. No fraud has been shown by him and his witnesses.

The animus of the whole disgraceful business on his part is exhibited in the court's condemnation of Gen. Miles—a condemnation which is not the less severe on account of the moderate language in which it is expressed—for his failure to report immediately what he knew or believed concerning the unfitness of the beef. Having, or claiming to have, knowledge that the food of the soldiers was unsuitable, it was his duty to take instantly the most effective measures to ascertain the truth and remedy the evils, if any existed.

This Gen. Miles did not do. He embalmed his facts, or supposed facts, for political use later on, and employed them, when he thought the time had come, as weapons of personal spite or ambition.

That is why the principal accuser comes out of this remarkable trial as the chief convict.

The inquiry ends in humiliation for the major-general commanding the army; humiliation as bitter as it is deserved.

Glendon Gray, a successful playwright and poet, is serving a term in the Michigan penitentiary on charge of horse stealing. He is in poor health and is allowed to continue his literary work in prison.

The government telegraph cable-ship Hooker is being loaded at New York with 250 miles of cable to be transported to Manila. The cable is intended to connect the important islands of the Philippine group.

The war department has decided to supply the soldiers in the tropics with underclothing of light jeans material. One hundred thousand suits will be shipped to Cuba and the Philippines as soon as possible.

WORK ON LEYDEN CREAMERY

To Be In Operation Within Thirty Days—Farmers Highly Elated

Leyden, May 16—Work was begun on the creamery here yesterday, the location being south of the railroad track near the creek. Mr. Horick giving a lease of land for the same. Mr. Mansfield stated that he expects to have everything in running order in thirty days. Farmers are highly elated over the prospect of having the creamery in operation so soon. The cream will be taken from here to the Eagle creamery to be churned, for this season, after which Mr. Mansfield intends putting in machinery to have the butter made here. It is reported that Fred Boss of Emerald Grove will be manager. He has had three years' experience in that line of work, under Mr. Fitch of that place. Mr. Collins is hauling the stone for the foundation of the creamery building, which was donated by Mr. Morrison. Thomas Mountjoy, our hustling blacksmith, is unable to attend to his work and is under the care of Dr. Sutherland. He has a good blacksmith from Milton working in his place. Miss Blanche Morrison, who had the menials the past

week, is around again. Miss Fannie who had a severe attack of them is recovering, but very slowly. Miss Kittie Lay opened her school May 8, after a delay of two weeks on account of measles. A small party was given at the home of Chas. Cassidy which a number of our young people attended and report a pleasant time. J. Highland, of Stoughton, spent Sunday here. Adam Brown, who has bought out Frank Owen's meat market in Footville, is making his weekly trip through here, coming Wednesdays. It would be much more convenient for the farmers on this part of his route and much more favorable for him to come some day later in the week, on account of our Cooksville meat wagon going through on Tuesdays. L. M. Bodenberger, our night operator, was initiated into the mysteries of the M. W. of A. at Janesville Camp on Monday evening. Mr. Fred Snyder, Footville's hustling machine agent, called in our village one day last week. Frank Morrison is seen at work again, after being laid off with an attack of measles. Mrs. M. Cary returned to her home in Janesville after spending a week at C. C. Morrison's, helping to care for the sick.

Richmond, May 16—Overcoats are very comfortable these days. These cold days are felt more at this time of year, than severe cold weather in mid winter. Considering the late spring we are likely to be favored with plenty of rain. Albert Went lost his only horse last week. Mrs. Lizzie Kullans, of Emerald Grove, has been visiting friends and relatives here. Quite a number turned out to clean and renovate the German Lutheran church last Wednesday, although it was a very disagreeable day. Fritz Behlman is under bonds of six hundred dollars to keep the peace for six months. Quite a number in this vicinity are having considerable trouble with their horses, through the busiest season, with horse distemper, as a good share of the horses afflicted, are unable for service. Miss Lottie Stoller spent a few days with her sister, Mrs. Ryer, at Darien last week. Charles Stoller, of Johnston Center, is building a new house for Mr. Reisenburg. Mrs. Henry Dunbar is spending a few days at home here with her parents. G. M. Holbrook has his new barn almost completed. Corn planting is being done in all parts of the county and quite a few have already finished planting. We think it strange that chipmunks and gophers also woodchucks are not to be seen this spring, as most every spring they are very numerous and many times destroy whole corn fields. A May party is anticipated at Turtle Lake in the near future. As no pleasure events have taken place lately we think it would be a great success. Very few have sown barley this year, as of late years barley has been a failure in this section of the country. Rock Prairie barley went 12 to 15 bushels per acre last year. Farmers are deriving some benefit through keeping hens this year, as eggs are fair price now and have been all spring. Other years eggs at this time generally came down to 6 and 7 cents a dozen, it is probable that a drop is not looked for as hens will want to set now, making eggs all the scarcer. A nine pound daughter has arrived to brighten the home of Mr. and Mrs. Harry Blakeman. Mother and child are doing well. Mr. Randall makes a weekly visit here and stays at Henry Stoller's every Wednesday. He has a horse with a 2:35 record, terms \$8. He solicits a share of your patronage. Arbor day was observed at the Scrabble district school. A. L. Byer and wife, of Darien, visited at Stoller's Sunday. Lovers of fruit will be pained to remember that a frost will destroy the fruit crop, and as the weather has been and is, a frost is very likely to be looked for.

OFFICIALS MEET AND TALK PEACE

BOTH ROADS OUTLINE THEIR PROGRAM.

Important Conference Held This Morning and This Afternoon in the Office of City Attorney Burpee—Attorneys For Both Railroads Tell Just Where Their Companies Stand.

Failure on the part of the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul railroad companies to adjust existing difficulties in this city over track possessions, induced Mayor V. P. Richardson this morning to take the matter into his own hands in behalf of the city.

In the office of City Attorney Burpee officials of both local roads assembled at 10 o'clock to adjust matters if such a thing were possible. Those present were:

Mayor Victor P. Richardson and City Attorney Burpee, in behalf of the city. Assistant General Superintendent Bush, Attorney Field, of Chicago, and Attorney A. A. Jackson, in behalf of the Chicago, Milwaukee & St. Paul.

T. A. Lawson, of Chicago, superintendent of the Wisconsin division, and Attorney E. M. Hyzer, in behalf of the Chicago & Northwestern.

Mayor Richardson informed the officials present that the city did not intend to tolerate any further trouble from either road and that North River street should at once be cleared of all cars and engines.

Attorney E. M. Hyzer outlined the stand that the Northwestern company would take in the matter. The Northwestern was ready to agree that if the Milwaukee road will move their cars and engines from River street no attempt at track connection would be made by the Northwestern until after settlement with the Milwaukee company either in a private way or through the courts.

Attorneys Field and Jackson then stated the position taken by the Milwaukee company, and it was agreed to have the proper stipulations drawn up and presented at 2:30 o'clock.

It was agreed this afternoon that both companies should get their cars and other obstructions out of River street; that the Northwestern should not attempt to force a crossing on River street without previous agreement and that the Milwaukee road should not interfere with Northwestern work on River street.

No agreement was made affecting the race.

Fifty men and a dozen teams commenced work this morning in clearing North River street of the gravel that was placed Sunday morning on the west side of the street by three hundred Italian laborers who made a road bed for the Northwestern tracks. The Northwestern company are standing the expense and are placing the dirt on the high raceway embankment bordering on the river on the north side of the Blodgett mill. In so doing they are making way for a place to lay tracks.

Eugene Fish and men commenced this morning the work of hauling flour by wagon from the Blodgett mill to the Milwaukee road cars on North Main street. As no cars can be moved at present on the race way tracks this is the only way out of the situation.

The Milwaukee company stand all this extra expense.

From the Ford Milling company mill yesterday afternoon the first car of freight to leave over the new Northwestern track, was shipped.

The car was loaded with fifteen tons of flour billed to Chicago.

The flour was taken from Milwaukee cars and hauled by drays to an awaiting Northwestern freight car that stood at the corner of Race and North River streets.

At an early hour this morning, the Northwestern's pile driver crew resumed the work of building the bridge across the race to the Ford Milling Company mill.

At 11 o'clock last evening the Northwestern officials received a scare on receiving a report that the Milwaukee road had quietly brought to town a hundred laborers.

Superintendent Lawson looked for Chief Hogan and informed him that he believed that the men were bent on pushing the Northwestern pile driver into the race. Instructions were given to remove the driver and engine from the edge of the race and the order was carried out in short order.

The alarm proved to be unfounded for no assault was made on Northwestern property during the night nor were one hundred extra men brought in by the Milwaukee company.

The Ford Milling Company were obliged to shut down their mill last evening for the want of grain, but work was resumed this morning.

Milwaukee road officials say that they will see that the mill is supplied with grain.

Norman L. Carle, of the Ford Milling Company, this morning said:

"What we want is both roads to our mill. Last night we were obliged to close our mill for the want of grain to work with, but the Milwaukee road officials claim that they will see that we get grain and this morning the mill resumed work."

"Both roads are doing all in their power to accommodate the mill owners."

Proved His Own Theory.

Lady—"You say, professor, that tobacco is an aid to thought and a stimulant to the reasoning faculties; but Prof. Greathhead says tobacco is in every way injurious. How do you account for that difference?" The Professor—"Easily enough, madam. Prof. Greathhead does not smoke, and consequently he can neither think straight nor reason correctly."—Stray Stories.

COFFISH OMELET.—Scald and pick into half inch bits enough salt codfish to make a solid half cup. Pare and quarter a dozen eggs. Cook them together in boiling salted water until the potatoes are tender. Drain off every drop of water. Mash well, add one teaspoonful butter, a few shakes of pepper and beat until no fish can be seen except by the fine threads. Beat two eggs very light and beat them well into the fish. The mixture should be very soft and creamy. Have the bottom of a spider or omelet pan covered with salt pork fat; put in the fish and spread it evenly over the pan half an inch thick. Cook slowly until a brown crust has formed; then loosen it round the edge and roll one side over and turn out like an omelet.

The clerk read a communication from Joseph E. Hoffman, Alexander E. Hoffman and Charles L. Cullen, by Dunwiddie & Wheeler, their attorneys, that on April 27th, 1899, at No. 322 West Milwaukee street, a quantity of tobacco in the basement of the building was damaged. The judiciary committee was granted further time to report.

The following two bids were received for furnishing the city with lumber:

Jeffris Co. offered to furnish common lumber, except 2x12's and 3x12's for \$16 per 1,000; the 2x12's and 3x12's to be \$17 per 1,000, and all lumber longer than 16 feet to be 50 cents per additional foot over. The report of the committee of freeholders, consisting of Edward Rathern, Wm. Ross and Geo. K. COOL RECEIVES PRISON SENTENCE

ONE YEAR AND SIX MONTHS THE TERM.

Prisoner Resided In This City and Was Arrested on Complaint of His Sister in-Law, Miss Sarah Wilcox—Oscar Burtness Now Behind Jail Bars For Want of Bail.

Solomon J. Cool, who was recently arrested and lodged in jail on complaint of Miss Sarah Wilcox, was brought into court this morning at 10 o'clock by Turnkey Brown.

To the charge in the complaint the defendant pleaded guilty stating to the court that he had nothing to say.

Judge Fifield then administered some good advice to the prisoner that he will do well to follow through life.

The court then sentenced the defendant to the state prison for a term of one year and six months at hard labor.

Solomon will be the first prisoner ever taken to Waupun from Rock county when the accompanying officer was obliged to pay railroad fare.

The anti-pass law brings this change in the program about and from now on Sheriff Appleby will have to pay railroad fare whenever he accompanies a prisoner to the state's prison or any other institution in the state.

TO WELCOME THE SOLDIERS.

President McKinley Will Take Part in Demonstrations.

MAY MAKE ANOTHER JOURNEY.

In Any Event the Troops Returning from the Philippines Will Be Congratulated on Their Home-Coming by the Head of the Nation.

Hot Springs, Va., May 16.—President McKinley is to take part in welcoming home troops who have fought in the Philippines. He reached the decision Monday to be in the west when the soldiers return, and will join with the people in receiving the men who have victoriously placed the flag firmly in the Orient.

This news will be gratifying from two points of view. First, it indicates the war against Aguinaldo will speedily end; and second, that the president is desirous of personally honoring the victors. If the trip to the west already planned should not occur when the volunteers are returning, another journey will be made to carry out this purpose.

This projected itinerary of the president will take him to California, Oregon, Washington, Utah, Montana, the Dakotas and Nebraska. It appears certain that he will also go to Minnesota. Minneapolis, Minn., May 16.—The date of the return of the troops is still an uncertainty, but leading citizens have organized for the purpose of celebrating the event in proper form, and when a definite idea of the date of their arrival can be obtained preparations for a great celebration will be rapidly perfected.

It is authoritatively stated that the scale in case of a settlement will be 31½ cents per ton, which is acceptable to the miners.

Mrs. L. B. Canniff, of 107 Cornelia street, says: "I doctored from time to time for the last eight or ten years for kidney complaint. I felt fairly well as long as I took medicines, but it left off I immediately became worse. At one time I had such a severe attack that I came near dying. The pain became so severe that it brought on nervous chills, my finger nails turned purple and I never suffered so much in my life. The medicine I took seemed to act as a stimulant while I used it, and I finally recovered in a measure. During the last three years I suffered from attacks of headache, dizziness and backache. It was for these reasons, that on learning about Doan's Kidney Pills, I procured them from the Janesville Co's. drug store and I can say they are a splendid remedy. The pain in the region of my kidneys was removed in a short time and since completing the treatment I have felt better generally. Doan's Kidney Pills for sale by all dealers. Price 50 cents. DISCOURAGED WOMEN

who desire to cure themselves at home can have the benefit of the advice of a regular practicing physician and specialist, without cost, by writing to Geo. C. Tallyday, M. D., 421 South State St., Belvidere, Ill. Dr. Tallyday has written in plain language, a little book for maids, wives and mothers, which he sends free in plain envelope.

Dr. Tallyday's Female Tonic

which can be obtained of all druggists at \$1.00 a bottle is a medicine which removes the cause of all female complaints, strengthens the different organs and restores their normal healthy condition. It not only cures displacements, inflammation, leucorrhoea, suppressed and painful menstruation, and has such a general tonic effect that, taken for some time before confinement, it makes childbirth easy. It is a great aid to nursing mothers and removes the many sources of danger to life. Taken as a spring medicine it will give renewed strength and appetite and take away that terrible feeling of weakness and lassitude which follows the winter months. Dr. Tallyday writes to Dr. Tallyday: "Your Female Tonic has done more good for me and my daughter than any remedy we have ever tried. Women who will try it cannot help but receive benefit."

BROOKE MAKES CONCESSION

Cuban Insurgents to Be Allowed to Retain Their Arms.

GEN. GOMEZ IS SATISFIED

He Will Assist in Paying Off the Troops—Civil Authorities to Collect the Rifles—Havana Newspapers Comment Pleasingly on the Situation.

Havana, May 16.—The stormcloud that hung over the American administration in Cuba is dissipated and the distribution of the \$3,000,000 probably will begin by the end of the present week. In the conference with Gen. Gomez Monday at the Vedado headquarters, Gen. Brooke waived the hateful condition requiring the surrender of the insurgent arms to the American officials and assented to their delivery instead to the civil authorities of the districts in which the various commands are now stationed. Gen. Brooke's concession, though tardy, has cleared the air and satisfied even the most irascible among the insurgents. It has given back to Gen. Gomez the little power which has been steadily slipping away from him since the negotiations with Gen. Brooke began.

In order further to explain his course in the last three months and to set himself straight in the eyes of his countrymen, Gen. Gomez will issue a manifesto relating the details of the negotiations with the American authorities for the disbandment of the Cuban army. This manifesto is already prepared, and a member of Gen. Brooke's staff has edited the pages before being sent to the printer, so the publication is little likely to create further controversy.

Gen. Brooke's decision to permit the municipalities to act as custodians of the arms whips the ground from under the feet of the assembly crowd, even while it gives them the semblance of a complete triumph. Gen. Gomez' militia project was popular only among his immediate following, which might hope to win high places in a new army, and the assembly chiefs, since their demands in the arms question are satisfied, have no grounds for further opposition to the American administration.

In the conference Monday Gen. Gomez engaged to forward the payment of the soldiers by every means at his command, and it is quite likely that he will name the new Cuban commissioners to represent the army in the distribution. The abandonment of the plan to demand the rifle and ammunition of every man who receives his American \$75 destroys the only means of checking the pay rolls and it is almost inevitable that the full 40,000 privates will qualify at the pay table.

The Havana press is unaccountably good-tempered in its editorial comments on the situation. The gravity of the crisis seems to have frightened them. All the papers plead with the Cubans to restrain their passions and avert the danger of a new revolution.

More Pay for 10,000 Miners.

Philadelphia, Pa., May 16.—The Berwind-White Coal Mining company, which has mines in Center, Clearfield, Jefferson, Cambria and Somerset counties, and which is one of the largest producers of bituminous coal in the world, Monday notified its employees of an increase in wages to go into effect June 1. Under the new schedule the miners will receive 50 cents per ton for pick mining and 25 cents per ton for loading after the puncher type of machine. The advance will directly affect 10,000 men.

Buffalo Strike Is Still On.

Buffalo, N. Y., May 16.—The dock situation is worse than at any time since the opening of the season. The monthly men—the men who work inside the elevators—are out and have agreed to remain out until the grain shovellers' and the freight handlers' strikes are settled. Every elevator here will soon be idle unless new men can be secured to take the places of the monthly men, which is said to be improbable.

NO EXTRA SESSION.

President McKinley Does Not Intend to Call Congress Together.

New York, May 16.—A special to the World from Hot Springs, Va., says: "President McKinley does not expect to call congress together in extra session, as has been frequently reported. This statement is made authoritatively. The information was given by an official of the administration. 'The president is averse to an extra session. Senator Hanna informed the writer more than a fortnight ago that he was opposed to an extra session of the new cabinet, and he said further that the President had no serious thought of calling the new congress together.'"

ONLY ONE CURE FOR SCROFULA.

S. S. S. is the Only Remedy Equal to this Obstinate Disease.

There are dozens of remedies recommended for Scrofula, some of them no doubt being able to afford temporary relief, but S. S. S. is absolutely the only remedy which completely cures it. Scrofula is one of the most obstinate, deep-seated blood diseases; and is beyond the reach of the many so-called purifiers and tonics because something more than a mere tonic is required. S. S. S. is equal to any blood trouble, and never fails to cure Scrofula, because it goes down to the seat of the disease, thus permanently eliminating every trace of the taint.

The serious consequences to which Scrofula surely leads should impress upon those afflicted with it the vital importance of wasting no time upon treatment which can not possibly effect a cure. In many cases where the wrong treatment has been relied upon, complicated glandular swellings have resulted, for which the doctors insist that a dangerous surgical operation is necessary.

Mr. H. E. Thompson, of Milledgeville, Ga., writes: "A bad case of Scrofula broke out on the glands of my neck, which had to be lanced and caused me much suffering. I was treated for a long while, but the physicians were unable to cure me, and my condition was as bad as when I began their treatment. Many blood remedies were used, but without effect. Some one recommended S. S. S., and I began to improve as soon as I had taken a few bottles. Continuing the remedy, I was soon cured permanently, and have never had a sign of the disease to return." Swift's Specific—

S. S. S. FOR THE BLOOD

—is the only remedy which can promptly reach and cure obstinate, deep-seated blood diseases. By relying upon it, and not experimenting with the various so-called tonics, etc., all sufferers from blood troubles can be promptly cured, instead of enduring years of suffering which gradually but surely undermines the constitution. S. S. S. is guaranteed purely vegetable, and never fails to cure Scrofula, Eczema, Cancer, Rheumatism, Contagious Blood Poison, Boils, Tetters, Pimples, Sores, Ulcers, etc. Insist upon S. S. S.; nothing can take its place. Books on blood and skin diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Georgia.

Chicago Live Stock Report.

Chicago, May 15.—Arrivals of cattle and hogs for the opening trade this week were well up to the most liberal estimate made late last week, but demand was strong for all useful cattle and values in that branch were strong to 10c higher. Hogs sold 2 1/2c off from Saturday's best range before the close, but later trade had fairly firm tone at that decline. Choice lambs again sold a point higher, values showing the highest range yet reached. Receipts were estimated at 17,000 cattle, 36,000 hogs and 17,000 sheep. Trade in the main had good tone and at noon the bulk of the run had been disposed of at fairly satisfactory prices.

For Uniform Anti-Trust Laws. Austin, Tex., May 16.—The convention of the governors and attorney-generals of all the states for the purpose of considering and agreeing upon an effective anti-trust bill to be presented to the various legislatures will be held in either Cincinnati or St. Louis. Gov. Sayers said he will issue the call for the proposed convention in a few days. The convention will meet about Sept. 15.

Took Up Officials' Passes. Milwaukee, Wis., May 16.—The anti-pass law went into effect Monday, and many public officials who thought it would not go into effect until published were compelled to pay fares on the trains.
